<p>सामग्री की व्यवस्थित एवं में ही (syllabus) है।</p> <ul style="list-style-type: none"> No but very interested in question good syllabus are easy to in class room I want do Teachers understand the students problem It should be practical base syllabus. old pattern is best comparison with new pattern Syllabus is very easy ND interesting__ It is generally an overview or summary of the curriculum. 1.online Exam form filling 2.books like 12 th fixed book of university will make study easier 3 . At least 10 days before exam syllabus should complete and 10 days for self study 4. Practical knowledge should be more than theoretical. Curriculum development is the multi-step process of creating and improving a course taught at a school or university. While the exact process will vary from institution to institution, the broad framework includes stages of analysis, building, implementation, and evaluation Teachers should more focus on teaching techniques and teach things in more practically way and use modern techniques for education. Teacher should teach like there's a 5th class students. And don't teach like it's a job Teach enjoyfully Lectures are not happening from time to time Compassion notes plz Provide basic information Describe the prerequisites to the course Provide basic information, Describe the prerequisites to the course. I think syllabus should include more performing practicals rather than theoretical ones for making the subject more interesting

<ul style="list-style-type: none"> • Curriculum so interesting • In Complete syllabus process add sume new topic . • To Improve the syllabus • Some changes about teaching just like online projects and some • Skill development vr focus asaava.. • Include more rather than less material and Provide basic information in syllabus. • Need a time to time...lecture...shif and help to the....student how to deal with study of offline exams. • Teachers should use presentation for better understanding of for students. • There is so many mistake in nmu syllabus. • Consider students options about lectures for syllabus completion • Some changes just like modern teaching. National levels sports in syllabus more than theory practical added to understanding simply For students Some projects and seminars add into syllabus • Should encourage sports • Incourage Students to do extra knowledgeable activities • अभ्यासक्रम हा सगळा योग्य आहे....पण अजून अभ्यासक्रम add करावा असे मला वाटतं. • Syllabus is to big • In teaching skills to have most use Power point presentation n e-learning.... • Language should be eassy in physical subject. Its going tough. • Syllabus is good but not completed on time because of lockdown leaves. 	
<p>Overall conclusion: For Science and Technology faculty, the present curriculum is satisfactory for students. For upcoming syllabus framing, the members should keep in mind that experiential learning should be included in the curriculum. The upcoming curriculum should have the mandatory inclusion of e-resources in the references along with physical reference books. Additionally, the inclusion of soft skills is also recommended by students. Some students demand an annual pattern of the curriculum. Need improvement in employability in the upcoming syllabus.</p>

Draft syllabus should be shared with all affiliated colleges and ask recommended before it finalizes in BOS. 2. New syllabus should be available on the university website one year ahead of implementation so that faculty will well prepare for the updated curriculum 3. Library should purchase the newly added reference books in sufficient quantity well before the implementation of the new curriculum. Applied and skill based Practicals should be added in all courses. More NET, SET based syllabus must be included at M.Sc. Level, Like Techniques, Biochemical Analysis. More emphasis should be on communication and practical use of English Language. JavaScript topic added to the course Skill components need to be added. In SYBA & TYBA Spl. Classes African Australian, Black literature should introduce. abled planning is necessary to furnish the teachers ability and Infrastructure development. clerical workload is distributed to the teachers which is breach of teachers The syllabus is well set and almost all the topics related to subject is covered from UG to PG. 	<p>Effective and improving suggestions were provided by alumni.</p>												

- *Recent advances in taxonomy, plant physiology, plant anatomy and embryology, cell bio and mole bio need to be included in syllabi of SY and TY *Books in references are good enough for students
- Thanks
- Research methodology should be added in pg courses and capstone courses in ug
- All courses are to satisfied for society and progresssnes of students .
- Books are favairable for public awareness about environment .
- Nano science based applications should be added.
- Strict marking scheme for Internal exams should be adopted.
- Every thing is very good for teaching and healthy environment for learning Practical and theoretical aspects are very related to both and may conten local scientific existing things.
- Include environmental awareness topic
- Some topics do not have sufficient teaching material so need to be dropped like life cycle of uncinula, other things are great.
- Certificate of physical and human geography By Goh Cheng Leong this book is very important for students for preparing UPSC and MPSC as well as other competitive exam like as NET / SET exam , so add the some topic in this book our geography course.....thank u...

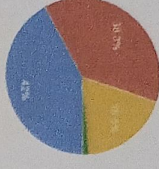

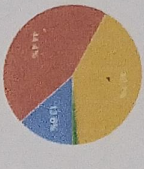

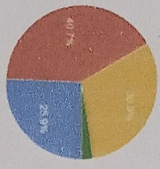

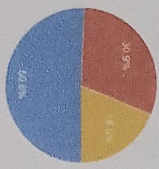

Overall conclusion: Form Teachers Feedback, the present curriculum is satisfactory for students. For upcoming syllabus framing, the members should keep in mind that **inclusion of reference should be cross-verify, easy availability of reference book should also the criteria along with quoting latest edition of a reference book with proper page numbers.**
